DESIGN AND TECHNOLOGY IN STAINLESS STEEL

PT Todas as peças apresentadas neste catálogo, são produzidas utilizando como matéria prima o Aço Inoxidável (Aisi 304). O Aço Inox, é um material 100% reciclável, amigo do ambiente e isento de chumbo, não necessitando de qualquer tratamento químico para proteger a sua superfície, com elevada resistência à corrosão e de fácil manutenção. Sendo um material moderno, com uma aparência elegante, correspondendo às necessidades técnicas e de design atuais.

EN All parts are produced using Stainless Steel (Aisi 304). The Stainless Steel, as a 100% recyclable material, environmentally friendly and lead-free, doesn't require chemical treatment to protect its surface, with high corrosion resistance and easy maintenance. Being a modern material, it has an elegant appearance, corresponding to the technical needs and current design.

ES Todas las piezas presentadas en este catálogo, se produce usando como materia prima acero de inoxidable (Aisi 304). Acero inoxidable es 100% reciclable, medio ambiente sin plomo, no requiere de ningún tratamiento químico para proteger su superficie con resistencia a la corrosión y fácil mantenimiento. Por ser un material moderno con un elegante aspecto, correspondiente a las necesidades y las técnicas actuales de diseño.

FR Les parties dans cette brochure sont produits en utilisant comme matière première en acier inoxydable (AISI 304). L'acier inoxydable, est un matériau 100% recyclable et sans plomb ne nécessitent aucun traitement chimiste pour protéger leur surface à haute résistance corrosion et facile à entretenir. C'est un matériau moderne avec un look élégant, correspondant aux besoins techniques et la conception actuelle.
